

## ***Building Solutions That Build Worth***

### **THE CHALLENGE**

A prestigious real estate company was looking to renovate their corporate offices that were built in 1960, without having to leave the premises or disrupt their workflow.

### **THE MKR SOLUTION**

Over the next 12 months the entire 20,000 square feet was renovated mostly off hours allowing the company to continually conduct business. Renovation work done during regular business hours was achieved by relocating workplace operations within the facility.

### **THE RESULT**

The entire 20,000 square feet was renovated using the latest in green products, the finest woods, granites, and metal materials.

### **Greater Boston Industrial Park**
